Step 9: Post-Incident Activities

Objectives:

At the end of this episode, I will be able to:

Understand what Post-Incident Activities are.

Explain what Step 9, Post-Incident Activities, of the IH&R process is.

Identify what the process flow for Post-Incident Activities should be for the IH&R team.

Define the actions that should be taken as part of Post-Incident Activities by the IH&R team.

External Resources:

Step 9 Post-Incident Activities

What is the process flow for Post-Incident Activities? -

These activities help to evaluate and improve the effectiveness of the incident response processes.

Post-incident activities will help the responders to assess lags in security posture, settings, and configurations across the organization.
